

Members of the SCCCSD,

You will note on your bills in March a new surcharge labeled CW-02, and I would like to briefly review this with you. As most of you are aware, the board approved a surcharge during the August 14, 2024 meeting for the DANR Loan for the wastewater treatment facility. This is by far the largest loan (\$3.6 million) that we have taken as part of the repair and expansion of our infrastructure which includes a new water tower and a new wastewater treatment facility. The amount collected is based on metered usage for both residential and non-residential customers. At the time of the preparation of the surcharge calculations, the July 2023 data was the most recent peak month data available for use. The board may annually review each year's surcharge and these charges may be adjusted.

You can find Resolution No. 2024-6 on our website if you first click SCCCSD Documents and then the General tab. If you have questions regarding billing of the surcharge, please consider attending the monthly meetings. Meetings are held on the 2nd Wednesday of each month at the Boat House and there is an opportunity for public comment at all meetings.

Thank you
Todd Schneider
SCCCSD President
